DETAILED ACTION

Claims

1. Claims 1-16 are pending.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

3. The abstract of the disclosure is objected to because it is too long. It should be no more than 150 words in length. Correction is required. See MPEP § 608.01(b).
4. The title is too long. A new title, containing no more than five words is required.

Allowable Subject Matter

5. Claims 1-4 and 11-16 are allowed.

Reasons for Allowance

6. Claims 1-4 and 11-16 call for crystallized polyester bottle necks of specified lengths having no machine screw threads therein.

There were no prior art references found that teach or suggest these bottle necks.

Claim Rejections - 35 USC § 112

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 5-10 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Evidence that claims 5-10 fail(s) to correspond in scope with that which applicant(s) regard as the

Art Unit: 1772

invention can be found in the specification at page 2, lines 8-11. In that passage, applicant stated: "the invention provides a crystallized bottleneck of a polyester beer bottle, which as a crystallized length of 0.5-35mm through shaping a bottle blank at high temperature. The crystallized bottleneck has no machined screw thread."

This statement indicates that the invention is different from what is defined in the claim(s) because the claims do not recite the length parameters or the absence of machined screw threads.
